Re: **Establishment Number Registration 091122-CO-001**

Dear Mr. Rancis:

This letter serves as notification of an establishment registration of the RK Mechanical Inc. located at 3800 Xanthia Street, Denver, Colorado 80238, for which you applied, pursuant to section 7 of the Federal Insecticide, Fungicide, and Rodenticide Act. Each registered establishment is assigned a unique establishment registration number. The number appears in bold print above. This establishment registration will remain in effect provided pesticide reports on production and sales or distribution amounts are submitted annually as required.

Title 40, part 167 of the Code of Federal Regulations requires your company to submit an initial report on EPA form 3540-16 within 30 days of receipt of this letter. EPA form 3540-16 and instructions for filling out the form may be downloaded from the following:

<http://www.epa.gov/compliance/monitoring/programs/fifra/establishments.html>.

Please note that the report will ask for production amounts of the prior year. Please include on the form production amounts for the current year if applicable. Please send the completed report to me at the letterhead address above, including the following mail code: 8ENF-UFO. Retain a copy of the form for your records.

Failure to submit your initial report within 30 days may subject your establishment(s) to an administrative civil penalty. After the initial report, future reports must be submitted annually, due March 1, as long as the establishment is active, regardless of whether or not production has occurred (regulations pursuant to section 7 of FIFRA).

Changes in name, address, or ownership of the company or any establishments are to be reported to this office within 30 days of the change. If your company decides to cease production of all pesticides or pesticide devices, you may request inactivation of your registration by notifying me. If you have questions, please call me at (303) 312-7076 or email at [webster.daniel@epa.gov](mailto:webster.daniel@epa.gov).

Sincerely,

*Daniel N. Webster*
