

Why Are Aquatic Facilities Switching?

Commercial Patented AOP (Advanced Oxidation Process)

Supplemental & Secondary Sanitation Systems

Lower Costs, Better Water

Free up budget by lowering chemical use by 30%-50% and eliminating energy-consuming UV.

Air & Water Guests Love

Welcome guests with fresh air and clear water with a freshwater feel, even on your busiest days.

More Time, Less Maintenance

Skip daily monitoring. Our AOP stabilizes pH, ORP and LSI. System care takes 15 minutes/year with no downtime.

Safeguard Your Reputation

Maximize safety. Our AOP eliminates biofilm, scale and 99.99% of chlorine-tolerant Cryptosporidium.

A Sustainable Upgrade From UV

- 60% Less Total Cost of Ownership
- 50% Less Upfront Cost
- 95% Less Install Cost & Footprint
- 90% Less Electricity Usage

Save With Energy Rebates

Upgrade from UV to AOP and offset costs with energy rebates.

50%

30%-50% Lower
Chemical Costs

90%

50%-90% Lower
Chloramines & DBPs

99.99%

Destroys 99.99%
of Cryptosporidium
